Subject: Permit for INJECTION WELLS
Date: Thursday, January 21, 2021 11:27:08 AM

Regarding: MI-139-1I-0007 & MI-139-1I-0008

I OPPOSE THE GRANTING OF THIS PERMIT:

1. The site is TOO CLOSE to the Grand River, and
2. The site is UP-STREAM from the Grand River, even at 4,000 +/- feet below ground it could contaminate the Grand River watershed.
3. The EPA cannot guarantee that the site will not pollute ground water further afield.
